

Douglas Varner

Microsoft

Douglas Varner is a Premier Field Engineer for Microsoft, working there since 2018. His previous positions were in IT for American Greetings, and KeyBank. A graduate of Grove City College, Doug also earned an MBA at Baldwin Wallace University. Doug has also served as an elder at Weymouth Community Church. When friends introduced his daughter to SCS, both he and his wife were overjoyed to let her join, both having been involved in choirs at her age. His daughter Elinor is a member of the Performance Choir, and the whole Varner family expects the youngest family member will soon be eager to join his sister singing with SCS.
