

JARED COLEMAN

Jared Coleman is President of Diogenes Asset Management UA LLC and Executive Director of UAkronPark, Inc. In these roles he manages compliance, stakeholder relations, capital projects, and strategic planning for the parking concession at the University of Akron.

He was previously the Director of Parking and Transportation Services at the University of Akron, which is also his alma mater.

Born in Akron, Jared grew up attending a church with a cappella congregational singing. This inspired a love for choral music. He has fond childhood memories of going with his family to hear the Akron Derbytown

Chorus and many barbershop quartets perform at the Civic Theatre.

The joy of singing, combined with a love of education and desire for equality make Jared a firm believer in the mission and values of Summit Choral Society.

Jared currently lives in North Canton, Ohio with his two children.
